EDITOR'S NOTE: HOW TO CHOOSE THE AREA'S BEST WEDDING PROS

By: Anna Coats
Marry Me Tampa Bay Editor-in-Chief

When planning a wedding the most important decisions to make (besides choosing your life partner) are the wedding pros you hire to deliver on your wedding day experience.

Selecting your wedding vendors can be overwhelming because there are so many to choose from. Most couples source personal recommendations, Google searches, social media feedback and national listing sites to begin their search, but the number of suggestions you receive can be mind-boggling.

One of the national wedding vendor listing sites has almost 700 photographers cataloged just for the Tampa Bay area! Even the most dedicated wed-to-be doesn't have time to narrow down all of those profiles, plus I personally wouldn't recommend over 70% of vendors on there (even ones with over 100+ 5-star ratings).

One of the best ways to keep wedding planning manageable is to start with a curated list of wedding pros. This can be from your wedding venue's preferred list, a selected poll from personal recommendations, or our collection of "Who's Who" of Tampa Bay Wedding Pros.

We have purposefully kept our Marry Me Tampa Bay list selective to bring you the area's most reputable and respected wedding professionals.

With our "Who's Who" publication, Marry Me Tampa Bay has done the research for you so that you can

focus on narrowing our list even further to choose the right fit for your budget, personality, and style.

Your wedding day is not a day that you can do-over if something goes wrong, so choosing your wedding pros truly is an investment in creating an unforgettable day.

Our focus for selecting our "Who's Who" is intended for couples looking for professionals first and foremost. With experience and talent comes a higher price point, so if you're price shopping, our pros won't be the least expensive, but they will be the most qualified.

You want to hire professionals not only for their knowledge but also to plan for mishaps (because they will happen) and to fix them without taking away from your experience on the day of.

With this 2025 publication also comes complementary insight from the *Marry Me Tampa Bay* editorial team.

Email social@marrymetampabay.com or DM [@marrymetampabay](https://www.instagram.com/marrymetampabay) with the wedding vendors that you're considering, and we'll let you know if they are reputable and share any weddings we've featured from them.

Cheers,
Anna Coats

Eddy Almaguer

Our Wedding Style Is:

My work represents a soft, elegant, and timeless aesthetic that perfectly encapsulates who my clients are as a couple, showcasing the best of their day, the passion between them, and the joy shared by their closest friends and family.

I know when to stand back and capture the unfurling candid moments before me and when to step in and help direct to achieve that soft, romantic vibe.

Our Personality Is:

I am an extrovert whose primary love languages are acts of service and gift-giving. When I show up with a camera in hand, I shake hands and introduce myself to everyone, and I take the time to learn everyone's name so that I can build rapport and ultimately become just another friendly face. I know how to loosen people up in front of the camera with a great combo of humor and hype, making sure that every step of the way, I'm supporting the vision of the wedding day.

What Inspired Us to Start Our Business is:

When I got married, my wife and I threw a grand party that is still talked about in our friend group. But back then, I didn't know about photography, so we fell into the trap of budget shopping. Our wedding photographs didn't capture what it felt like to be there that day.

When I began my business, I vowed that every client I ever served would never feel what we felt. Your gallery will reflect the highest highs of your day, the moments you didn't know were happening around you, and the I-can't-believe-that-happened dance moves of the night. That drive is what gives me the utmost confidence that you're going to love your gallery.

What Makes Our Business Stand Out From Other Photographers Is:

The client experience. From a custom 90-page bridal guide that you'll receive after booking, to some surprises and delights as we lead up to your wedding, I go above and beyond for my couples to deliver a client experience they'll never forget.

I deliver great photos. But the reality is that to some, the line between a good and a great photo is blurred. But the line between a good and a great client experience is clear, and that's what I bring to your wedding experience.

pine and forge

To pine: to yearn for someone or something
To forge: to create, to form with fire

Wedding Style:

We like to say that our wedding style is a refreshing mix of playfulness and photojournalism.

Some popular terminology that couples use to describe our style is vibrant, fun, candid, editorial, filmy, classic, timeless, true to color, real life, and documentary-style.

Most importantly, we want you to be YOU, and sometimes that can be challenging for couples if they are not used to being in front of the camera or don't enjoy the spotlight, so our way of directing what we capture helps our couples get there.

I Love Weddings Because...

Love is the most moving, powerful, meaningful, beautiful part of the human experience, and we are so lucky to get to capture that for our couples. Aside from love, weddings are full of hope, inspiration, happiness, and testimony — all things that fuel our passion for photographing and filming weddings.

Personality:

We are vibe-matchers and cheerleaders. We truly enjoy bringing out the essence of your relationship — with each other and with your family and friends in the moment.

What Inspired Me to Start My Business

Photography has always been a big part of my life — even if I wasn't always the one holding the camera. From my mom taking a million photos of me and my siblings growing up to recently going through my grandparent's house and finding a whole room full of boxes of photos and albums going back decades. The depth and importance of documenting personal family history is something that will stay with me forever.

I launched into the wedding industry straight after college when I started working as the Creative Director and Designer for a bridal magazine.

Pine and Forge came to life in 2017 and truly took off in 2019 when it became a full-time endeavor. It comes from a deeply sentimental place to be able to photograph and film these magical, personal moments for my couples while adoring the fine, intentional details.

One Thing Couples Would Be Surprised To Know Is:

I am ordained in the state of Florida, and on one occasion, I had to spontaneously officiate the wedding ceremony of one of our couples. The rest of my three-person photo/video team stepped up to capture the ceremony flawlessly. The guests had no clue anything was amiss! The Mother of the Bride thanked me profusely for literally saving the day. It was quite a different experience editing a wedding film that had my spur-of-the-moment script and my voice on it.

WHAT INSPIRED YOU TO START YOUR BUSINESS?

I opened up my laptop one day and I had the most beautiful message.

"These pictures are so perfect! Thank you so much! I am literally crying right now!"

That's my goal: to make my couples cry. (Happy tears only!) When I capture moments, I'm giving you a pass to relive and share the happiest moments you've ever experienced. So while I do love weddings and my camera...the passion behind my life's work is creating images that are so intensely beautiful and deeply meaningful so that you can relive them for the rest of your life.

WHAT MAKES YOUR BUSINESS STAND OUT FROM OTHER PHOTOGRAPHERS?

Gorgeous photos are only the beginning of what we offer. Having genuine friendships with my clients positively impacts your wedding portraits.

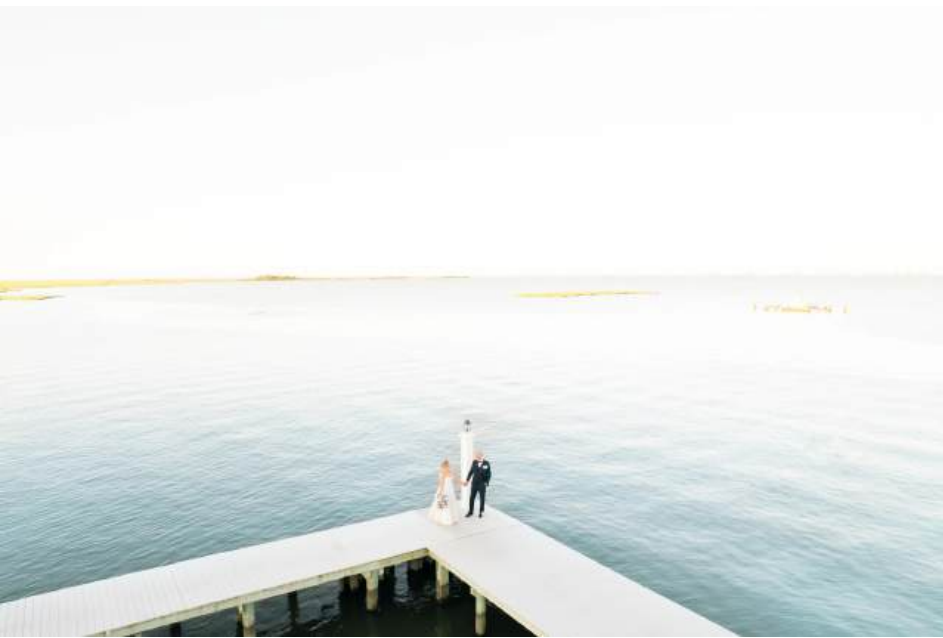

You want more than just beautiful portraits. You want someone who knows your love story and captures real emotions, so when I arrive on your wedding day, it will be a relief to feel like a friend arrived and not just a hired vendor.

Because I've photographed so many weddings, I know what will make for GOOD wedding days and what will make for GORGEOUS wedding days.

I work with you on all the little details...everything from engagement portraits, to veil choices to exits. I craft a custom timeline with each of my brides that will capture YOUR priorities for the wedding day.

One of the main reasons that our clients love their photos is because they love how they look in them. We help our couples feel natural and confident in front of our cameras. I teach them how to pose for their body type to create special moments that look beautiful, easy, and natural in front of the camera.

Amber McWhorter Photography provides couples with memories that will last forever.

It is a produced vision of their journey together as a couple from their engagement session, to their wedding day, and even anniversary sessions when desired.

My photography is a photo-journalistic style. I am there to tell your story and to document your day which is accentuated by taking in all of the surrounding areas and creatively using them to enhance your photos.

I love sunshine and using natural lighting as often as I can to enhance the warm glow and sun flares in the portraits that I capture. This produces photos what a more genuine feel.

While editing is part of all post-processing, my editing stands out because I stick to deep, natural colors that will keep images timeless.

One of my favorite things about being a wedding photographer is loving what I do. I love meeting new couples. I love getting to know them and witnessing their connection.

"I have a passion for documenting moments of raw emotions and connections between two souls. This significant time stands still, and it is put into photographs that will last a lifetime."

What Would Couples Be Surprised to Learn about You?

"One thing most couples would be surprised to know about me is that while I am super comfortable being behind the camera when I am in front of the camera, I have no clue what to do!

So many couples think that because I am good at giving prompts, posing, and capturing candid moments that when I am in front of the camera, I am a natural but I totally am not!"

What is One of Your Passions, Non-Wedding Related?

A non-wedding related passion is traveling. In my spare time away from my business, I love exploring and enjoying the outdoors. The world offers so much beauty, and it is a passion of mine to see it, photograph it, and to stop and just take it all in.

AMBER MCWHORTER

I am a wife, a mom to a little girl, and a dog mom to a husky-shepherd mix, Kaia. While I have lived in the Tampa area my entire life, I love going on new adventures to travel and see new places, trying new restaurants and coffee shops, checking out local breweries, going to concerts, and experiencing new moments.

I am an ocean lover but thoroughly enjoy the mountains almost as much. My husband and I live very water-oriented lives, with him being a fishing charter captain and my love for a beautiful sunset beach engagement or wedding. We both enjoy a beautiful day on the water, fishing, scuba diving, or just cruising around to watch the sunset.

While in college, I learned film photography however, my passion continued to grow through learning photography in the digital world. Today, I am blessed to have my successful photography business for over ten years, and I am still in love with every moment and couple captured.

Meet husband-and-wife team, Jennifer and Scott

Jennifer is the lead photographer, videographer, and point-of-contact for all of our couples.

Scott is the lead videographer, lead editor, and photographer.

Jennifer plays a more vocal role on the wedding day. She loves directing and guiding everyone to ensure everything goes smoothly, while Scott plays a more technical role in ensuring the actual documentation is perfect and our team is coordinated.

What Makes Your Business Stand Out From Other Photographers/Videographers?

Both of us are skilled and able to capture both photo and video. We are very familiar with both mediums of documentation and how to navigate a wedding day to support what looks good for both photo and video. We are very prompt-based in our direction for portraits of our couples and their wedding parties to allow for more natural emotions and motion that translate well to both forms of documentation!

Scott has 15 years of experience in photography and videography while Jennifer has 8 years of experience. Our camera work comes natural to us -- we'll capture all moments (big and small) and are able to simultaneously shoot, direct, and be actively involved on a wedding day.

We specialize in cinematic wedding films & timeless photos that make you feel something

We Love Being a Part of the Wedding Industry Because:

"We're known for pairing our artistic photography and videography style with an ability to navigate weddings with ease."

-STACY AND GARRY BOYCE

OUR PERSONALITY IS

We are fun-loving, light-hearted, and patient creatives at heart. We take our work very seriously, always looking for the next 'thing' that will set us apart. We are flexible, calm under pressure, and feed off each other's energy and ideas.

Being a married couple ourselves gives us (and you) an advantage when it comes to posing, chemistry, and understanding the value of your relationship.

We help you feel at ease by being a calming, assuring presence. The feedback we receive is that being photographed by us feels like being on an amazing date with incredible photos.

WHERE DO YOU DRAW YOUR INSPIRATION?

Our artistic influence comes from European photography, fashion, culture, and art. We have studied under some of the most predominant photographers in Spain, Russia, and Germany. Our inspiration comes from the use of light and shadow, the way that natural light plays on our subject, and the surrounding architecture.

Storytelling is of the utmost importance when it comes to our final gallery and film delivery, not redundancy in photo after photo with little to no variation. We create a moving story that unfolds as if you're there again, feeling those emotions, enveloped into the moments once again.

WHAT IS ONE THING COUPLES WOULD BE SURPRISED TO KNOW ABOUT YOU?

We both have a background as first responders. Garry was a volunteer firefighter, and Stacy was a firefighter and EMT. This contributes to our ability to remain calm and collected during wedding days. We work well under pressure and don't shy away from a fast moving day.

JOY HMIELEWSKI

What inspired you to start your business?

I started in the photojournalism field and was traveling to different countries every year. I realized I love observing the way people connect, but mostly I love the rituals that bring couples and families together. Capturing those moments and preserving those emotions is so rewarding. Since I thrive on adventure and the hustle of challenging work, wedding photography is a perfect fit for me as a career.

What makes your business stand out from other photographers?

After ten years of photographing weddings, I've dealt with what feels like every possible scenario. I've also photographed a variety of unique venues such as luxury hotels, vineyards, yachts, sailboats, and beaches in Mexico and the Bahamas. I have a great understanding of the challenges that can arise and how to move past them with ease.
