With an extensive music collection that includes over 100,000 songs, we craft and play the combination of music you and your guests will enjoy most and have a deep knowledge of a wide range of music.

Most often it is a collaborative process, with the client having an idea of what they are looking for and working together to achieve the best event possible.

As a Director of Catering in the hotel industry, I was always passionate when I was able to work with couples on their weddings. I loved being able to help them bring their visions to life and watch them relax on their special day and not have to worry about any of the details, except to enjoy themselves!

"Music was extremely important to us. We wanted the music to create a fun environment and reflect who we are. We wanted all of our guests to have fun and let loose on the dance floor!"

The violinist did such a beautiful job during the ceremony and cocktail hour. I basically sent him a list of songs I wanted, even songs on the radio now, and he played them with ease and beautifully.

The DJ was great too! Our dance floor was full the entire night, and he played a variety of music that kept everyone dancing."

-Amanda and Joseph
