What inspired you to start your business?

I loved planning parties for my children, so I combined my Corporate Event Planning background with my passion for parties and launched Parties A' La Carte! I started by planning lavish social events before branching into the wedding planning industry.

Where do you draw your inspiration from?

Each client is different, so our first inspiration comes from getting to know their likes and dislikes. We follow the latest wedding and party trends while adding our own spin to them to create timeless events.

"Creating a lifetime of memories to cherish is Parties A' La Carte's forté."

What inspired you to start your business?

I used to dream of being an interior designer and then stumbled into wedding planning. It was my true passion and the perfect blend of both!

I was planning lots of my friends' weddings and eventually just kept getting requests!

I used to work in the hotel industry, which pushed me further into hospitality.

I love being creative and designing new trends/ Inspirations with my couples.

**"Let's Create An Experience
Unlike Any Other"**

What makes your business stand out from that of other wedding planners?

We design customized wedding experiences! Our team works with each client to design unexpected, beautiful wedding environments that are custom-tailored to them for their dream wedding day.

Our business is unique because we encompass the true meaning of a whole team of women who are passionate about this industry. We strive to make a wedding day lovely, beautiful, relaxing, and memorable for everyone. No two couples are exactly alike, which means planning each event is a unique experience.

Our personality is:

Outgoing, fun, charismatic, caring, and open-minded.

We have the magic recipe for keeping not only the planning of your day on the right track but the day-of running like a well-oiled machine!

What would couples be surprised to learn about you?

I am obsessed with pool floats! (You should see my patio) I just love them, all of them. I think if I could take all my calls in the pool on my float, life would be complete.

"We wanted to make sure whoever we were working with was a good fit for us, personality-wise, since you do a lot of meetings and correspondence during the planning process, and the planner is also there with you on your big and, at times, stressful day. Coastal Coordinating was a great price for all of the services they were providing as they were bringing so much value to the planning process to make sure everything ran smoothly the day of."

UNIQUE Weddings + Events is a leading wedding and event design, planning & production companies. As a Florida wedding and event planner, we are renowned for creative concepts, strong attention to detail and creating unforgettable experiences for our clients and their guests.

What inspired you to start your business?

After spending many years in the design field working on residential, hospitality and retail interior design, I realized that I could take my education and experience and carve out a niche within the wedding & event industry. We wanted to be the one that pushed couples to truly personalize their wedding and not just "break," but "rewrite" the rules.

What makes your business stand out from other wedding planners?

All of our UNIQUE Weddings & Event clientele share a passion for "something different," and they are seeking the wedding planner to help them achieve it. Prior to being a Florida wedding planner and event planner, we spent many years in the design field. We utilize our extensive design background by taking our client's vision to a new level, and incorporating new ideas, color schemes, and innovative details.

Each client's event should showcase their own voice, style, and personality and not be restricted by the standard event rules or traditions.

We are not your typical wedding planner, but rather we are designers who plan events!

3 Fun Facts:

I'm originally from New Orleans, Louisiana, so I spent my childhood hitting the Mardi Gras parade route and sucking crawfish heads.

I love anything with tomato, although I'm still not convinced that it's a fruit.

My ideal client is sarcastic and may drop the occasional "f-bomb."

Breezin' Weddings is a team of skilled professionals who don't just plan – we create, curate, and personalize your wedding dreams into a reality!

What makes your business stand out from other wedding planners?

We will go over and beyond the call of duty. There are very little things that we tell our couple that's not included in our "month of" package. Each package comes standard with one lead coordinator and an assistant, and we stay until the very end to pack up their belongings. We even allow our couples to use some of the decor items we have on hand such as cake stands, easels, signage, and card box at no additional charge.

Our personality is:

Kind, patient, and fun loving. We truly appreciate every single vendor involved in the wedding process and love to work as a cohesive team with everyone from the venue to the DJ to ensure a seamless day.

We love planning weddings because:

Getting to know our couples "love story" is one of our favorite things. Before we get into the hustle and bustle of wedding planning we love getting to know them on a more personal level so we can truly understand them and their style.

OUR WEDDING STYLE:

We love every kind of wedding style, but we gravitate towards a modern and contemporary aesthetic with a sense of luxury and romance. WHAT MAKES OUR BUSINESS STAND OUT FROM OTHER PLANNERS IS:

SPECIAL MOMENTS EVENT PLANNING

With nearly a decade of experience as a Lead Dream Maker, Tammy Waterman heads a planning team with nearly 50 years of combined experience in weddings and events.

Special Moments is a full-service event planning company that loves to talk about weddings. The company started in 2004, by the owner Tammy Waterman, whose passion is to help everyone have a "Special Moment" no matter what your budget is. We love challenges!

Tammy is 1 of only 47 wedding planners in the world to hold the designation of *Master Wedding Planner* and the only company to have two *Master Wedding Planners* on their team. She is a recipient of the *Dorothy Heart Award* given for passion and dedication to the wedding industry.

What is one of your favorite things about being a wedding planner?

We get invited to be part of a huge day for a couple and their families. That's a big honor and after being in business for over eighteen years we've become part of a lot of families.

K&K Photography

Visual Muse Studio

"Think of us as the friend who loves to chat about your wedding details all the time!"

-Tammy Waterman

Where do you draw your inspiration?

Inspiration comes from a number of places; our couples and their personalities give a lot of inspiration from their wedding and the surrounding nature and history offer a lot of inspiration.

Beyond that being part of the Association of Bridal Consultants, we see the incredible work of our colleagues from around the globe.

What is one of your passions non-wedding related?

Travel! Experiencing cultures and food from around the world is another place of inspiration.

What is a must-have at every wedding?

Obviously, a wedding planner!

Beyond that every couple should have a Plan B for their wedding day; it's important to look at the "what ifs" in terms of weather or if something happens to a wedding pro on on a couple's big day.
